Contents of Volume 71

Number 1, 7 March 1978

SPERTELL, R. B., On the Decay of Lateral Phase Separations in Biological Membranes	1
MEISKE, W., GLENDE, M., NÜRNBERG, G. and REICH, J. G., On the Influence of Rapid Periodic Parameter Oscillations on the Long-time Behaviour of Cell Metabolism	11
MAZANOV, A., Acceptor Control in Model Ecosystems	21
VAN DRONGELEN, W., HOLLEY, A. and DØVING, K. B., Convergence in the Olfactory System: Quantitative Aspects of Odour Sensitivity	39
TAPIA, O., SUSSMAN, F. and POULAIN, E., Environmental Effects on H-bond Potentials: A SCRf MO CNDO/2 Study of Some Model Systems	49
WILSON, K. J. and KILGORE, D. L. Jr., The Effects of Location and Design on the Diffusion of Respiratory Gases in Mammal Burrows	73
GOEL, N. S. and ROGERS, G., Computer Simulation of Engulfment and Other Movements of Embryonic Tissues	103
ROGERS, G. and GOEL, N. S., Computer Simulation of Cellular Movements: Cell-sorting, Cellular Migration through a Mass of Cells and Contact Inhibition	141

Number 2, 21 March 1978

TUCKWELL, H. C. and RICHTER, W., Neuronal Interspike Time Distributions and the Estimation of Neurophysiological and Neuroanatomical Parameters	167
PARNAS, H. and SEGEL, L. A., A Computer Simulation of Pulsatile Aggregation in <i>Dictyostelium discoideum</i>	185
WU, T. M. and AUSTIN, S., Bose-Einstein Condensation in Biological Systems	209

SCHAUP, H. W., A Paradigm for Ribosome Fidelity Modulation in Protein Synthesis	215
LEVIN, R. L., CRAVALHO, E. G. and HUGGINS, C. E., The Concentration Polarization Effect in a Multicomponent Electrolyte Solution—The Human Erythrocyte	225
MCELWAIN, D. L. S., A Re-examination of Oxygen Diffusion in a Spherical Cell with Michaelis–Menten Oxygen Uptake Kinetics	255
ROSENTHAL, G. A., Is Canavanine a Natural Component of Mammalian Metabolism?	265

LETTER TO THE EDITOR

DUCHESNE, J., MOSORA, F., RINNÉ, M. and DRESSE, A., The Effect of Heavy Water on the Organic Free Radical Content in Rat Liver and Kidney: Consequences for Senescence and Cancer	275
---	-----

Number 3, 7 April 1978

SUEZAKI, Y., Statistical Mechanical Analysis of Interfacial Tension of Black Lipid Membrane	279
DIPAOLLO, T., HALL, L. H. and KIER, L. B., Structure-activity Studies on Hallucinogenic Amphetamines using Model Interaction Calculations	295
GRADIŠEK, A., KORDAŠ, M. and SVETINA, S., A Mathematical Analysis of Factors Determining the Time-course of Membrane Conductance Change Evoked by Electrophoretic Drug Application	311
CARLIN, R. K., The Poly(A) Segment of mRNA: (1) Evolution and Function and (2) The Evolution of Viruses	323
RESNICK, M. A., Similar Responses to Ionizing Radiation of Fungal and Vertebrate Cells and the Importance of DNA Double-strand Breaks	339
NOY-MEIR, I., Stability in Simple Grazing Models: Effects of Explicit Functions	347
NORMAN, J. C. and SAGER, P. E., Modelling Phosphorus Transfer Rates in Lake Water	381
NELSON, C. V., The Effects of Heart-cavity Blood Resistivity and Volume on Endocardial Potentials: Theoretical Predictions	387

HASSARD, B., Bifurcation of Periodic Solutions of the Hodgkin-Huxley Model for the Squid Giant Axon	401
YOUNG, D. A., On the Diffusion Theory of Phyllotaxis	421
CRAGG, B. and McLACHLAN, E., A Mechanism for the Observed Recovery from Ineffectiveness of Synapses in the Central Nervous System	433
HENDY, M. D., PENNY, D. and FOULDS, L. R., Identification of Phylogenetic Trees of Minimal Length	441
LEITH, A., Detection of Limited Life Span in Small Clones	453
LETTERS TO THE EDITOR	
WESTALL, F. C., Possible Change of a Recognition Mechanism for Determining Encephalitogenicity	465
CASTRODEZA, C., Evolution, Complexity, and Fitness	469
BRILL, M. H., A Device Performing Illuminant-Invariant Assessment of Chromatic Relations	473

Number 4, 21 April 1978

TREHUB, A., Neuronal Model for Stereoscopic Vision	479
ROHLFING, D. L. and SAUNDERS, M. A., Evolutionary Processes Possibly Limiting the Kinds of Amino Acids in Protein to Twenty: A Review	487
PEREZ, J. F., MALTA, C. P. and COUTINHO, F. A. B., Qualitative Analysis of Oscillations in Isolated Populations of Flies	505
BECK, J. S., Echinocyte Formation: A Test Case for Mechanisms of Cell Shape Changes	515
GATES, D. J., Bimodality in Even-aged Plant Monocultures	525
TAYLOR, F., Foraging Behavior of Ants: Theoretical Considerations	541
KIJIMA, H. and KIJIMA, S., Co-operative Response of Chemically Excitable Membrane I. Formulation: Unified Theory of Co-operativity	567
BERG, O. G., A Model for the Statistical Fluctuations of Protein Numbers in a Microbial Population.	587

STUART, C. I. J. M., TAKAHASHI, Y. and UMEZAWA, H., On the Stability and Non-local Properties of Memory.	605
IMAI, H. T., On the Origin of Telocentric Chromosomes in Mammals	619
JEAN, R. V., Growth and Entropy: Phylogenism in Phyllotaxis	639
HUKINS, D. W. L., Bone Stiffness Explained by the Liquid Crystal Model for the Collagen Fibril	661
NEWS ITEM, Satellite Program in Statistical Ecology	669

Index to Volume 71

- Aggregation in *D. discoideum*, a computer simulation of pulsatile, 185
- Amino acids in protein to twenty: a review, evolutionary processes possibly limiting the kinds of, 487
- Amphetamines, hallucinogenic, using model interaction calculations, structure-activity studies on, 295
- AUSTIN, S. (see WU, T. M.), 209
- BECK, J. S., Echinocyte formation: a test case for mechanisms of cell shape changes, 515
- BERG, O. G., A model for the statistical fluctuations of protein numbers in a microbial population, 587
- Biological membranes, on the decay of lateral phase separations in, 1
- Biological systems, Bose-Einstein condensation in, 209
- Black lipid membrane, statistical mechanical analysis of, 279
- Bone stiffness explained by the liquid crystal model for the collagen fibril, 661
- Bose-Einstein condensation in biological systems, 209
- BRILL, M. H., A device performing illuminant-invariant assessment of chromatic relations (letter), 473
- Canavanine a natural component of mammalian metabolism?, 265
- Cancer and senescence, the effect of heavy water on the organic free radical content in rat liver and kidney: consequence for (letter), 275
- CARLIN, R. K., The poly(A) segment of mRNA: (1) evolution and function and (2) the evolution of viruses, 323
- CASTRODEZA, C., Evolution, complexity and fitness (letter), 469
- Cell metabolism, on the influence of rapid periodic parameter oscillations on the long-time behaviour of, 11
- Cell shape changes, echinocyte formation: a test case for mechanisms of, 515
- Cell, spherical, with Michaelis-Menten oxygen uptake kinetics, a re-examination of oxygen diffusion in a, 255
- Cell-sorting, cellular migration through a mass of cells and contact inhibition, computer simulation of cellular movements, 141
- Chromatic relations, a device performing illuminant-invariant assessment of (letter), 473
- Chromosomes in mammals, on the origin of telocentric, 619
- Clones, small, detection of limited life span in, 453
- Collagen fibril, liquid crystal model for, bone stiffness explained by the, 661
- Complexity, evolution and fitness (letter), 469
- Concentration polarization effect in a multicomponent electrolyte solution—the human erythrocyte, 225
- Contact inhibition, computer simulation of cellular movements: cell-sorting cellular migration through a mass of cells and, 141
- COUTINHO, F. A. B. (see PEREZ, J. F.), 505
- CNS, a mechanism for the observed recovery from ineffectiveness of synapses in the, 433
- CRAIG, B. and McLACHLAN, E., A mechanism for the observed recovery from ineffectiveness of synapses in the CNS, 433
- CRAVALHO, E. G. (see LEVIN, R. L.), 225

- Dictyostelium discoideum*, a computer simulation of pulsatile aggregation in, 185
- DIPAULO, T., HALL, L. H. and KIER, L. B., Structure-activity studies on hallucinogenic amphetamines using model interaction calculations, 295
- DNA double-strand breaks, similar responses to ionizing radiation of fungal and vertebrate cells and the importance of, 339
- DØVING, K. B. (see VAN DRONGELEN, W.), 39
- DRESSE, A. (see DUCHESNE, J.), 275
- Drug application, electrophoretic, a mathematical analysis of factors determining the time-course of membrane conductance change evoked by, 311
- DUCHESNE, J., MOSORA, F., RINNÉ, M. and DRESSE, A., The effect of heavy water on the organic free radical content in rat liver and kidney: consequences for senescence and cancer (letter), 275
- Echinocyte formation: a test case for mechanisms of cell shape changes, 515
- Ecosystems, model, acceptor control in, 21
- Electrolyte solution, multicomponent—the human erythrocyte, the concentration polarization effect in, 225
- Embryonic tissues, computer simulation of engulfment and other movements of, 103
- Encephalitogenicity, possible change of a recognition mechanism for determining (letter), 465
- Endocardial potentials: theoretical predictions, the effects of heart-cavity blood resistivity and volume on, 387
- Engulfment and other movements of embryonic tissue, computer simulation of, 103
- Environmental effects on H-bond potentials: A SCRF MO CNDO/2 study on some model systems, 49
- Erythrocyte, the human, the concentration polarization effect in a multicomponent electrolyte solution, 225
- Evolution, complexity and fitness (letter), 469
- Fitness, evolution and complexity (letter), 469
- Foraging behaviour of ants: theoretical considerations, 541
- FOULDS, L. R. (see HENDY, M. D.), 441
- Fungal and vertebrate cells and the importance of DNA double-strand breaks, similar responses to ionizing radiation of, 339
- GATES, D. J., Bimodality in even-aged plant monocultures, 525
